

SENTRY PRO – ABSORB THE IMPACT

**No one protects
your facility,
equipment, and
people like Sentry
Protection Products.**

SENTRY PROTECTION PRODUCTS

The Sentry Protection family of products offer the most complete impact protection available to fully protect your investments – your facility, your equipment, and your people. From parking garages to warehouses to materials-handling facilities, our full-line of column, corner, rack and concrete cushion products absorb impact time and time again. Always on-guard, Sentry products install and protect at a fraction of the cost of most bollard, poured concrete and other protection systems.

All Sentry Protection Products are:

Extremely versatile

- Wide variety of sizes to fit most applications
- Ideal in a variety of environments – parking garages, warehouses, industrial, or anywhere columns, posts, beams or corners are exposed

Incredibly tough

- Protects in most any condition
- Moulded from semi-flexible and stress-crack resistant plastics that minimize the force of tow motor, vehicle and other impacts that can damage columns, racks, corners, concrete, supports, vehicles and operators
- Chemical-resistant and non-conductive

Highly visible and easily maintained

- Bright Safety Yellow with contrasting black straps to maximize visibility
- UV stabilized plastics prevent fading or discoloration
- Waterproof, easy to clean and removable for maintenance

Easily installed

- No tools required, one person can install in seconds
- Most products attach using self-gripping straps and closures
- Save time, labour, and the cost of construction, materials and downtime

Cost-effective

- Built to last and absorb impact after impact
- Economically protects the structural integrity of your building
- Costs a fraction of rack, floor, column or inventory repair/replacement
- A one-time “insurance” investment

Column Sentry™

For every column in your facility. We have the protection that fits and lasts. From our smallest 10cm x 10cm Column Sentry to our largest 50cm x 50cm, we have your columns covered. Fits columns from 10cm to 50cm squares, rounds and H's.

Rack Sentry™

Rack Sentry prevents rack damage and accommodates most rack widths from 75mm to 120mm. Stackable for increased vertical protection with sizes to accommodate corners and horizontal beams.

Park Sentry™

Uniquely designed polypropylene column protector that can be quickly and easily customized to fit around virtually any square column or post to protect vehicles and columns.

Concrete Wrap™

Cushions existing concrete bases from posts and pillars to columns and flat walls. Two-inch thick closed-cell foam with protective outer shell, easily installs on flat walls, round posts, and curves.

Corner Sentry™

The best protection for wall corners, vehicles, and your facility. The only energy-absorbing corner protector that protects corners of all kinds, in any application. Attaches easily via wall anchors or adhesives.

Quality protection for your facility.

- **Complete protection** – from columns and racks to corners and walls
- **Quality engineered** – designed to withstand the impact again and again in your facility
- **Tested and proven** – over 100,000 products performing every day worldwide
